Introduction

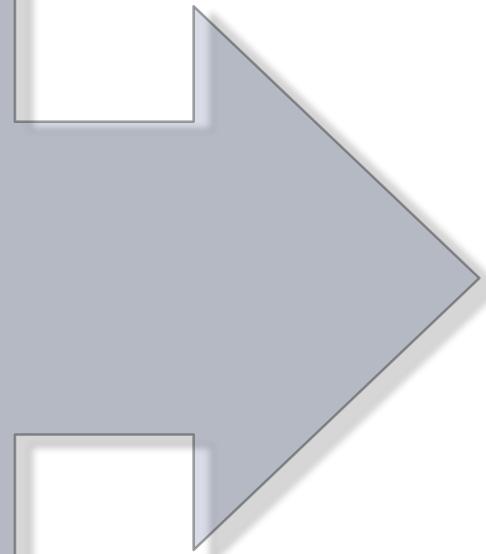

Some key points

- This pernicious pandemic not only hurled significant damages to our society.
- Trampled societal harmony.
- Upending its medical infrastructure.
- Engendering a sense of fear among people
- Claiming millions of lives even today.

Financial crisis

- This pandemic of COVID 19 had rammed down the global economy three times worse than the 2008 financial crisis.
- Millions of companies are at an existential threat.
- Half of the world's workforce on the verge of losing their job.
- Self-employed small-scale workers are being affected the most.
- As a result people could not get access to social and quality healthcare protections as well.

Crisis regarding Food & Agriculture

Important Points

It is affecting numerous small-scale farmers in numerous ways.

Due to the government-imposed lockdown of several nations, the supply chain of agricultural supplies getting disrupted.

Because of the challenges in accessing labor for their farms, transportations, technical assistance farmers could not yield profit.

The price of petrol skyrocketed along with other farm supplies

Hampering the food and agricultural sector of society results in upending economic balance.

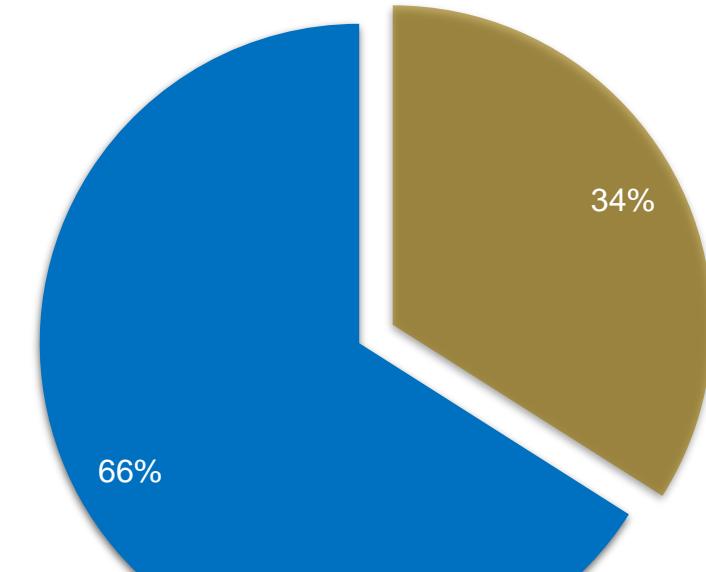

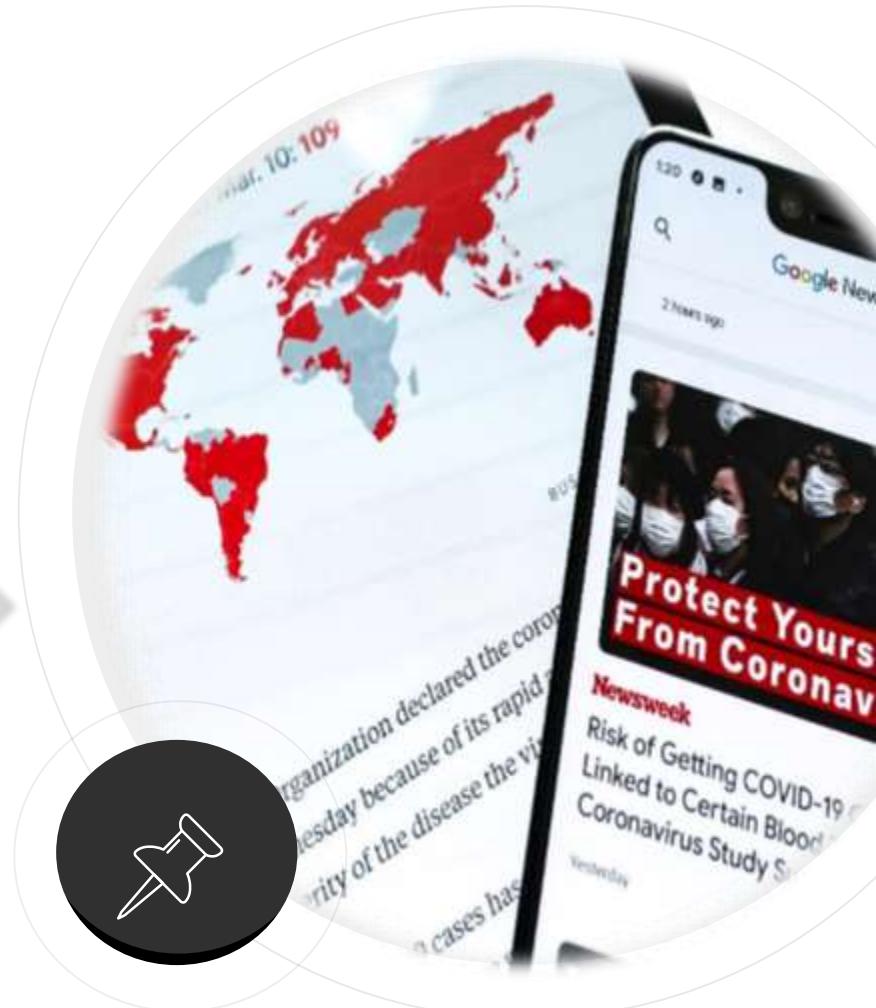

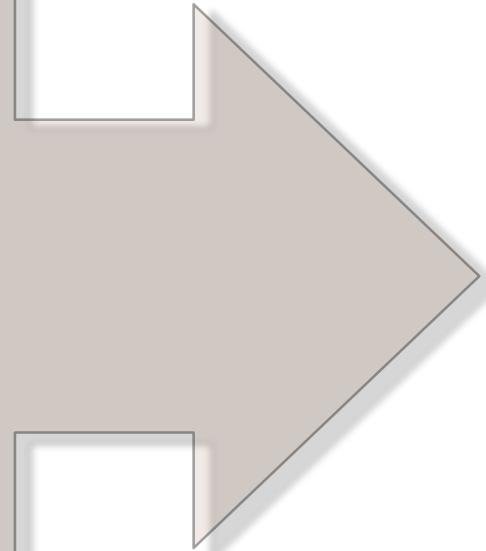

Figure1: Percentage of farmers of the world facing challenges due to lockdown

Crisis regarding Public health

- The healthcare system had been put under immense pressure and was stretched beyond its capacity.
- Countries like India have been going through a severe oxygen crisis.
- It became difficult for people to get access to a good healthcare system even spending millions of dollars.
- Health workers are being constantly exposed to threats and sometimes are succumbing to COVID infections.
- Because of this crisis patients suffering from chronic illnesses like renal disorders or cancer could not get their timely treatment.

Psychological distress & Social harmony

KEY POINTS

- This lockdown imposed by government it became difficult to manage the social harmony as well.
- 'Mental health is becoming a major concern for the health and wellbeing of people, especially for frontline workers'- WHO.
- Such impact is elevating rates of stress or anxiety, increasing levels of loneliness, depression, and use of alcohol and harmful drugs.
- Such studies is engendering suicidal tendencies among people and contributing to disrupting social harmony

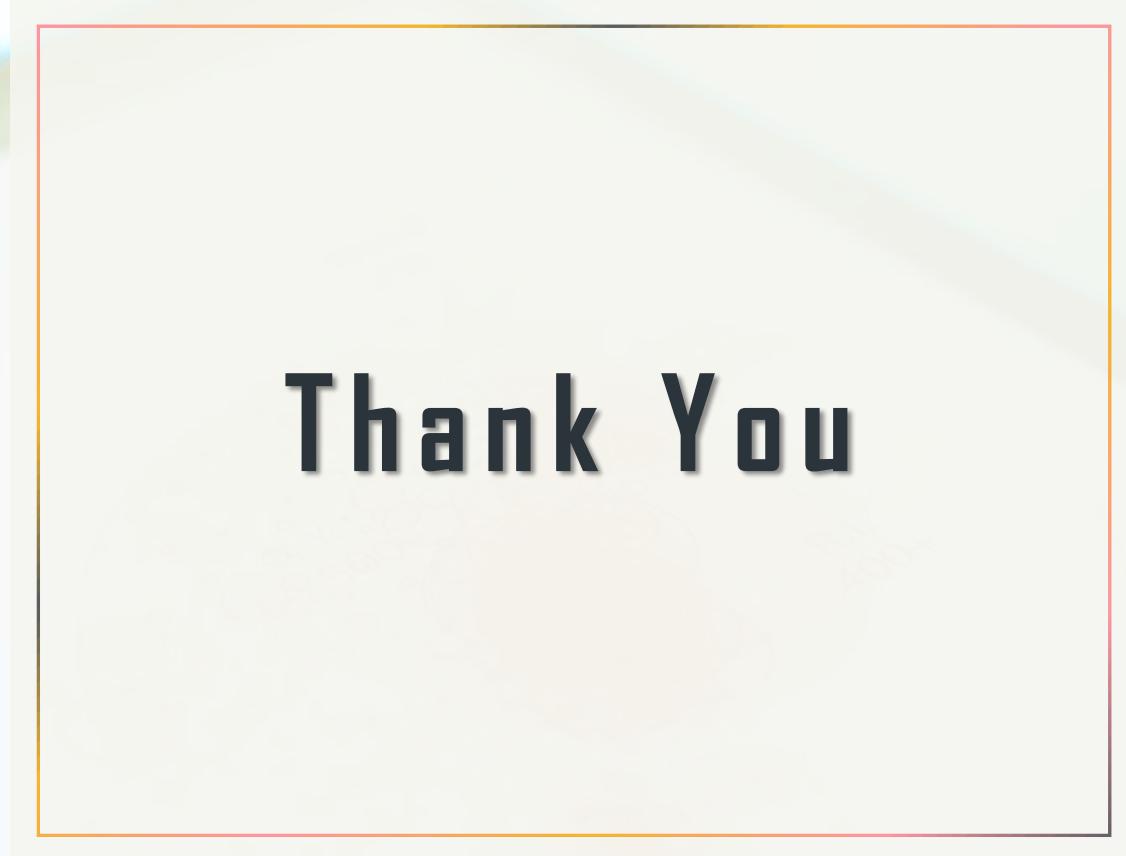

Conclusion

Some more key points

- The day in day out life challenges that we are encountering on a regular basis seem pernicious and insurmountable
- 'If there is a will there is a way'- IF we want we can get of this pit.
- It is we and only we who have to take ourselves out of this crisis.
- Have to start acting upon this problem from this very moment.

Recommendations

- Need to frame new policies to address the problem of the financial crisis.
- Need to make more budgetary allocations in the health sector to improve its infrastructure
- we should remain positive.
- Need to talk to people, get counseling appointments if needed.
- Make use of technologies like texting and video callings to their last onus.

Thank You
